

My First Lab

Ages 4-6

It's Mad Science 101. Snatch up your coat and meet us at the lab. You are now ready for some science fun. Flasks, beakers and balance beams are some of the equipment the junior scientists will use to conduct age appropriate experiments . We'll even do a little mixing to shake things up. The five sessions include: Mad Mixtures; In the Lab; World of Worms; Human Body; Color Lab
